## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's amendments incorporating the subject matter of previously objected to claims 64, 74 and 84 into independent claims 1-3 are sufficient to overcome the prior art of record and place the application in condition for allowance.

### ***Allowable Subject Matter***

2. Claims 1-3, 60, 62, 65-69, 75, 77-79, 85 and 87-89 (now renumbered 1-18) are allowed.

3. The following is an examiner's statement of reasons for allowance. These reasons for allowance should not be interpreted to imply that limitations not specifically mentioned are immaterial to patentability. The specific limitations identified below have been considered in combination with the entirety of the claim in determining patentability.

The prior art of record fails to disclose or reasonably suggest a method/apparatus as claimed wherein a user selects a designation for a partial sheet after having selected the designation portion for the partial sheet at least one before, and wherein a determination is made regarding whether to obtain partial sheet information for display from a selected printing apparatus or from a memory storing the sheet information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
